

Carbon Reduction Plan Template

Supplier name: Elective Services Ltd.

Publication date: August 2022

Commitment to achieving Net Zero

Elective Services Ltd. is committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

| | |
|--|--|
| Baseline Year: 2021 | |
| Additional Details relating to the Baseline Emissions calculations. | |
| Historic baseline, no prior scope 3 emissions reporting. | |
| Baseline year emissions: | |
| EMISSIONS | TOTAL (tCO₂e) |
| Scope 1 | 0% |
| Scope 2 | 3,395 Indirect impact from electricity & fuel |
| Scope 3 (Included Sources) | 0 |
| Total Emissions | 3,395 |

Current Emissions Reporting

| Reporting Year: 2022 YTD (Year 1) | |
|-----------------------------------|--|
| EMISSIONS | TOTAL (tCO ₂ e) |
| Scope 1 | 0% |
| Scope 2 | 2,037 Indirect impact from electricity & fuel |
| Scope 3 (Included Sources) | 0% |
| Total Emissions | 2,037 |

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 2900 tCO₂e by 2026. This is a reduction of 14%

Progress against these targets can be seen in the graph below:

Carbon Reduction: Projected vs. Actual

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2021 baseline. The carbon emission reduction achieved by these schemes equate to 1,358 tCO₂e, a 14%ge reduction against the 2021 baseline and the measures will be in effect when performing the contract

To date we have completed the following carbon reduction projects:

- Environmental Management System, ISO 14001
- Implementation of an environmental policy
- Implemented training sessions across the organisation
- Created Travel Policy for reduction of emissions

In the future we hope to implement further measures such as:

- The use of renewable energy
- The supply and use of electric or hybrid company vehicle

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard⁴⁵ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting⁶.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard⁷.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

A handwritten signature in blue ink that reads "Rebecca Switz". The signature is written in a cursive style with a large initial 'R'.
